

Weaviate + EcomMax

June, 2025

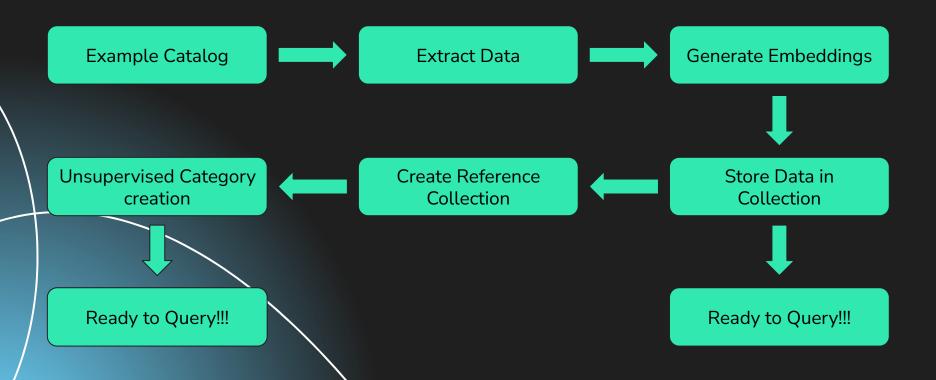

Agenda

01 EcomMax Current State	Slide 03
02 How Weaviate Organizes your data	Slide 04
03 How to query with Weaviate	Slide 05
04 Demo	Slide 06
05 Thanks	Slide 07

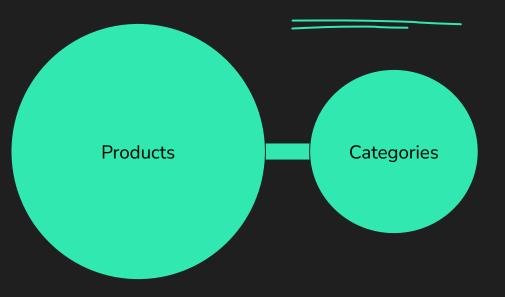

Lets talk about how things work at EcomMax

- 1. Millions of products in its catalog
- 2. No auto-categorization
- 3. Lacking product descriptions
- 4. What else?

How Weaviate can help organize your data...

How Weaviate can help query your data...

Semantic Search

In our demo we can use semantic search against titles, descriptions or both to find what matches our criteria

Graph Search

We can use similarity search on categories and find relationships back from categories to Products for automatic categorization

Traditional

Weaviate still is a database and supports inverted indexes for more traditional searching.

DEMO

View the code at: https://github.com/tdenton8772/weaviate_demo
